Subject: TSCA Chemicals - Problem Formulation Meetings for HBCD and 1, 4 Dioxane

Thank you all for coming together and sharing your thoughtful inputs during last Friday's TSCA Scope meeting and for your follow-up conversations. In light of the short time-frame we have to complete problem formulations for the first 10 chemicals, we would like to schedule meetings next week on HBCD and 1-4 dioxane with your offices. At the meetings next week we will discuss specifically how your regulatory framework for 1, 4 Dioxane and HBCD could be considered in the TSCA risk evaluation framework.

For these meetings we request that you identify one person that participated in Friday's TSCA Scope meeting to also participate in the HBCD and/or 1-4 dioxane meetings along with appropriate technical staff if your programs have equities in one or both chemicals. Please reply with the names of attendees and whether they should be invited to the HBCD and/or 1-4 dioxane meetings. Also, please identify a central point of contact that we can work with to ensure your Office's inputs in the future chemical evaluation. Derrick Bolen in OCSPP will be working to schedule these meetings.

Thanks again for your assistance!
Charlotte
